Kingsland Implements Changes In City Operations Due To Continued Covid-19 Concerns

PUBLIC NOTICE (*January 15, 2021*) - The City of Kingsland announces changes to normal operations due to concerns regarding the increase in new reported COVID-19 cases and Governor Kemp's extension of the Public Health State of Emergency. City departments are making operational adjustments to ensure the continuation of all essential City services for residents and businesses.

Access to some city buildings is restricted to employees only. The restriction will continue until further notice. Government services, including police, fire, garbage pick-up and permitting, will continue as usual. Citizens are urged to utilize online or telephone services when possible. If you must do business in-person at a City building, please call ahead to ensure facility access is available. Many city staff members are working remotely at this time in an effort to reduce the spread of COVID-19 and to ensure proper social distancing.

The Governor's Executive Order states that cities and counties that have 100 or more confirmed COVID-19 cases per 100,000 people may enforce mask requirements on public property. Kingsland/Camden County currently meets that threshold. Therefore, effective immediately, the public is required to wear a mask upon entering a public building. Masks will be made available, if needed. Social distancing protocols are being strictly enforced.
